COACHING AREAS

Coaching Bays

Each top level coaching bay is equipped with 3 high speed cameras, Trackman, GASP, force plates and instant replay TV screens.

Putting Studio

Located on the top level, the putting studio is a raised putting green that utilises SAM Putt Lab and three high speed cameras integrated with GASP.

Golf Fitness Studio

Located on the lower level, the golf fitness studio is fitted with a treadmill, ropes machine, chest press and weight balls. In this area you will be guided by our golf fitness expert. Please refer to the golf fitness price guide for more information.

TECHNOLOGY

Trackman

Trackman technology uses ground breaking golf club and ball tracking radar systems to allow our golf professionals to effectively measure your game and help unleash your potential. Trackman is used on all major professional golf tours around the world and is a key tool for learning and club fitting.

High Speed Video Capture

Our Golf Swing Analysis Software (GASP) allows our golf professionals to analyse your golf swing, providing an interactive experience and instant take home feedback through video capture.

SAM Balance Lab (Force Plates)

SAM Balance Lab is an ultra-high resolution force plate used to evaluate balance, weight and pressure transfer during your golf swing, all key elements in game development.

SAM Putt Lab

SAM Putt Lab can instantly analyse a number of key performance indicators for your putting stroke. The technology can compare your putting stroke to top PGA tour professionals as well as identify your stroke type which will assist in choosing your ideal putter.
